

Book Creator

The Basics

To start a new project

From the "My Books" screen, tap "New Book"

Choose the style you would like to use

The "+" when you are working on a book allows you to add text, sound, drawings, or pictures/videos

To reorder, delete, or copy pages in your book:

Tap "Pages" at the top of the screen

Tap "Edit" from the pages screen (The pages will start to wiggle)

You can select the page you want to copy or delete, and then make the appropriate changes.

Drag and drop to rearrange your pages

When you are finished, select "Done"

Pictures

Pictures can come from the camera roll, be drawn with a pen, or taken with the camera from in the app

For the best results, use the camera roll

To use pictures from other apps, simply save them to the camera roll

For apps that don't have that as an option, you can take a screen shot and then edit the picture from within the Apple photos app, which will allow you to crop out the unwanted parts

Videos can also be added into your book from the camera roll.

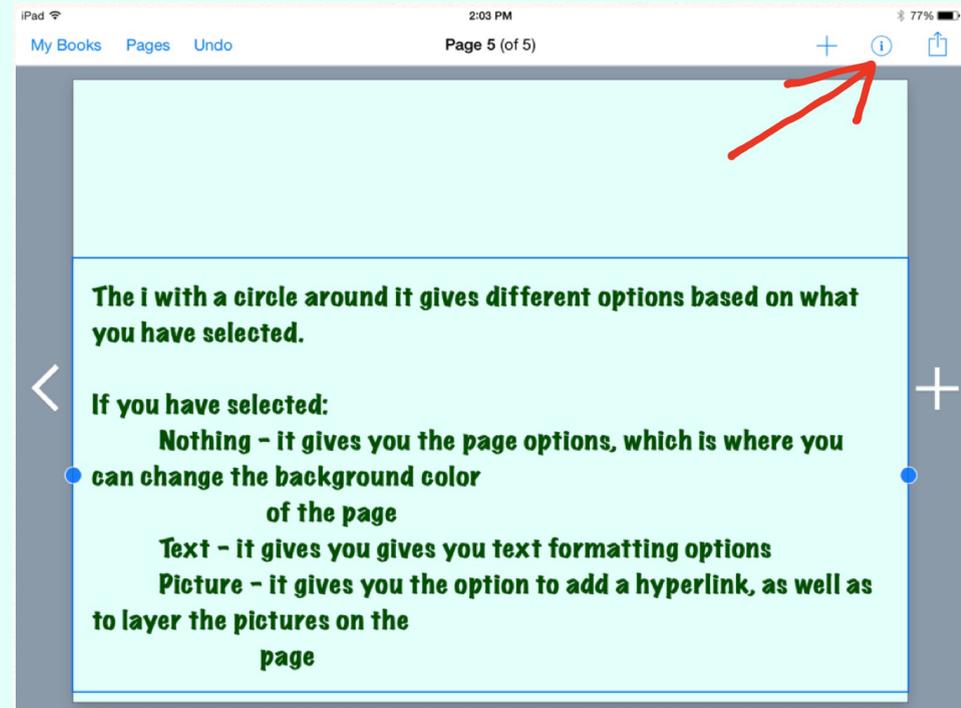

The Inspector Icon

If you have selected:

Nothing - it gives you the page options, which is where you can change the background color of the page

Text - it gives you gives you text formatting options

Picture - it gives you the option to add a hyperlink, as well as to layer the pictures on the page

Creating Hyperlinks

Hyperlinks are attached to pictures

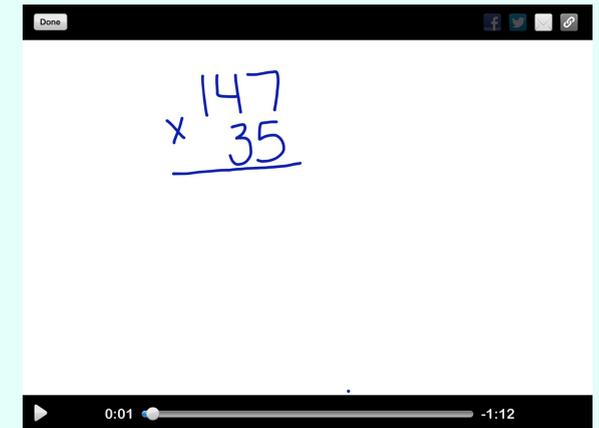

To create a Hyperlink, first navigate to the page you want to link to, and copy the URL

Go Back to Book Creator, and select the picture you want to attach the hyperlink to

Tap the Inspector icon

Tap in the "hyperlink" box

Touch paste

You can also create hyperlinks to embed Educreations presentations by copying and pasting the link in Educreations

Collaborative Books

Each student creates his/her own page, and then submits them to the teacher.

The teacher can then combine the pages into 1 book.

Students could also email them to each other to create collaborative books on their own.

Combining Books

Books that you are going to combine must be created in the same format: Portrait, Square, or Landscape

1. From "My Books" select the book you want to use as your final product.
2. Tap the "+"
3. Select "Combine Books"
4. Select the book you want to add on to the first
5. Tap "copy"

The pages will be added to the end of the first book

Sharing Your Books

From "My Books" you can:

Email in epub format

Print

Open to another app (in epub format)

Upload to itunes

Export as PDF, which can then be
emailed, sent to another app,
uploaded to itunes, or printed
